

## Customer Oriented Professional Service

Since its inception in 1999, SCG provides Government agencies with custom IT solutions and project management services.

SCG spearheads agencies' IT issues in areas of high demand, driving results throughout the full project scope. We ensure your agency will benefit from the right custom solutions, whether it will be data management, GIS, software engineering, or the Web.

Our solutions bring private sector innovations and project management best practices to the core of government IT operations. Integration of IT professionals and project management experts ensure that our solutions thoroughly address your agency's specific needs.

**SCG brings the best management practices to facilitate your agency's unique requirements**

**OUR MISSION IS TO  
ASSEMBLE, OPTIMIZE,  
AND MANAGE THE  
SOFTWARE THAT  
PUTS YOUR BUSINESS  
DATA TO WORK.**

## Timely, secure and sustainable custom IT solutions

Systems Consulting Group, LLC (SCG) brings many years of Federal IT experience where you can rely on our Project Management Team to deliver all the work required to complete a project within defined scope, quality, time and cost. SCG is a premier resource for Customer Oriented Professional IT Services. Our mission is to develop, implement and efficiently manage the technologies that put critical information to work for our customers. We combine innovative designs with proven technologies to enable our customers to achieve their goals on time with maximum return on IT investments.

SCG is an expert in implementing IT solutions effectively. We provide IT services to our clients with a focus on strategic customized solutions, cutting-edge innovations, and cost-effectiveness.

### **Department of Commerce (NOAA)**

SCG developed and maintained custom-designed database applications and providing continuous technical support for NOAA. Our services includes software development, database engineering, database management, applications development, Web development, software engineering, and software. Managing and supporting NOAA Corps Officers databases, SCG designed and developed Commissioned Personnel Center Document and Record Management System.

### **Department of Housing and Urban Development (HUD)**

SCG has been providing technical services in support of HUD's large Internet/Intranet Websites with extensive technical and subject-matter expertise in new technologies and methodologies.

## Focus on Federal Information Technology

Our dedication to the customers and their goals is what sets us apart from other small IT service providers. We work together with government agencies to help them access accurate, timely, and reliable data that lessens risk and improves program's overall success
